

Governor's Office of Emergency Services
Public Safety Communications

Service Descriptions & Rates

FY 2013-14

Radio Engineering Services:

\$145.00 per hour

Radio engineering services associated with a new or existing Public Safety and Public Service communication system includes system planning and design, site and coverage surveys, FCC licensing and frequency coordination, technical specification preparation, equipment evaluation and testing, project management, installation, and modification engineering. Travel time associated with engineering work is charged at the hourly rate.

Radio Maintenance Services:

Equipment Installation and Modification:

\$122.00 per hour

Installation, modification, and relocation of radio and related equipment during normal business hours. Travel time is charged at the hourly rate. Parts are additional.

Mobile Radio Equipment Installation/Removal (Flat Rate):

Estimates available
upon request

Installation, removal and modification of mobile radios, undercover installations, Code 3 installations and related equipment. Travel time is charged at a flat rate.

Annual Maintenance Service Program (Fixed Rate):

Estimates available
upon request

The program covers all breakdown repair and preventive maintenance for equipment covered by the program, including travel and parts, for a fixed annual rate. The fixed rate is based on a 3-year average of repair hours for individual agencies covered by the program.

Emergency Repair/Installation (Hourly Rate):

\$122.00 per hour

Technician call-back for emergency repairs or installation activities after normal working hours, weekends and holidays. Travel time is charged at the hourly rate. Parts are additional. (Minimum four hours charged per Department of Personnel Administration Rule 599.708.)

For additional information, contact the Public Safety Communications Office at (916) 657-9405.
